1898 The Post Ghent

The 38 Guest rooms are decorated in a warm style, accenting the building's architecture with the high ceilings, dark green walls and antique furniture. With great views through the grand windows, the restored wood and indirect lighting create a cozy atmosphere accented with a contemporary touch of freshness. The natural earth colours of the interior design combine a local sense of place with a relaxed feeling of being at home. The Lithoss reading lights in bronze antique where matching perfect with the warm textures of the hotel rooms. All buttons where engraved, so no need to search which button to use.

Damier Kortrijk

Hotel Damier is a charming 4-star hotel, located on the Grote Markt in Kortrijk, with a classified façade from 1769.

This luxurious boutique hotel - is a stylish base to explore the city. Hotel Damier is a place where history is combined with contemporary charm, it is a hospitable hotel where service comes first.

For this our SELECT series was chosen as the basis in a combination of brass with textured black, where the basic material of the black textured plate is also brass, so that after laser engraving the engraving is again in brass, which in this way forms a very beautiful whole.

STANDARD RANGE FOR

Printing or Engraving Symbols

To personalize our switches, text (in the language of your choice) or symbols can be printed or engraved on the button and/or coverplate. These symbols can be printed via a special silk-screen process. The colour of the print depends on the chosen finish, for example a silver symbol on a gunpowder black coverplate. A true added value to our products is laser engraving so you don't only see the strength and quality of our products, you also feel them. By choosing the correct laser setting you can burn the surface locally in order to obtain a discrete black symbol or laser deeper to make the symbol appear in the base material. Other symbols can be printed or engraved when quality images are supplied.

	1 raise temperature		17 doorbell		33 gate closed		49 play		65 floor lamp

OR HOTEL SOLUTIONS

Combinations

Ever thought about combining?

What makes Lithoss unique, are the almost limitless possibilities in the area of functionality, finish, combination options and personalisation.

Switches, sockets, USB chargers, sensors and thermostats, whether or not connected to the most advanced domotics systems: Lithoss offers a wide range of applications. Just think of, for instance, a panel you can install at the head of your bed.

Luminaires

The LUMINAIRES collection provides the finishing touch to any turnkey project, both in residential and hospitality. The Lithoss design is perfect for functional as well as creative solutions. The Lithoss push button & reading light combination – the collection's bestseller – is a nice example of the perfect synergy between the sister companies Lithoss and TAL. This luminaire can be easily combined on a 2-fold, 3-fold or even 4-fold front plate. The Gatekeeper and Nightguide are design solutions for orientation lighting in stairwells, hotel rooms etc.

Nightguide

Gatekeeper

Q light

USB charger

The Lithoss USB charger is an extremely fast charger (2A) that charges most devices quicker than the standard adapters that are supplied by the manufacturers!

The USB charger can be easily installed on every standard (European) wall box that connects directly to 230V. Thanks to the indication LED you are able to monitor the status of the charging process.

charging

fully charged

Doorhandle

Finish your project with a Supernova. Positioning the switch at the same height of the doorhandle creates a perfect match.

Vacuum socket

100% compatible with all Elek-Trends (etp) systems. Compatible with all central vacuum systems with diameter 40 mm tubes.

Floorsockets

ARPI

Floor Sockets by Lithoss
